

The JFK Assassination-60 years on Nov. 22, 2023

Moving beyond his Death to the Resurrection of JFK's World Peace Plan

By Paul Fitzgerald and Elizabeth Gould

October 17, 2023

JFK at the "Parking Lot Rally" 22 Nov 1963, Fort Worth, Texas [PUBLIC DOMAINE](#)

In 1991 we started tracing our Fitzgerald family history back 1000 years to the end of the Desmond Fitzgerald rule in Ireland when they were defeated by the forces of Elizabeth I. History has marked the beginning of the British Empire with the end of the Desmond Wars following the beheading of the last Earl of Desmond in 1583. We identified the long history we were tracking as "Mystical Imperialism," a philosophy that rationalized the expansion of empire by infusing a sense of the divine into the raw politics of empire building. We will present our "Mystical Imperialism" research as powerful and invisible influences behind the framing of the assassination of JFK at the [Dallas Convention](#) this November 17, 2023. Conference and ZOOM link info can be accessed [HERE](#).

In 2021 we started leading monthly TrineDay Publisher's roundtable discussions to investigate how to resurrect JFK's American University Speech as the basis of world peace. In the past six months we also came to grasp the economics of Henry George that are in line with the perennial wisdom teachings of economic justice needed before we can build JFK's *Peace for All Time*. We presented the creation of the Fitzgerald mythology surrounding JFK's life at RoundTable 6, [Resurrect JFK and The USA](#) . It can be viewed [HERE](#).

Recently we've found historical records on JFK's beloved grandfather and mentor, Boston Mayor John Francis Fitzgerald. Known as "Honey Fitz," he predicted JFK would become

president and tutored him until his death in 1950. It turns out that “[Honey Fitz](#)” was an ardent proponent of Henry George’s land value taxation. This find was an important discovery that gave new meaning, not only to the historical story we were building but to the mystical purpose of the Fitzgerald legacy. It was as if we had been touched by an angel encouraging us to keep building, no matter what the odds, the economic justice platform needed for JFK’s peace plan to unfold.

The time is ripe to bring forward an economics that is outside of the "right/left" box and will bring masses of people into a unity of intention and purpose to solve America’s major social problems. Our job is to get this message for solving our human made problems out to the American people. Making that happen will set the stage to fulfill the true meaning of JFK’s sacrifice for all of us.

We hope you can help us with our task. A good place to begin is to read the documents we provided below. Each one offers a different perspective on our work to consider. Once you have a chance to review these materials, please pass this package of information on to your friends.

In their memoir, *Valediction: Three Nights of Desmond Part 1* co-authors Paul Fitzgerald and Elizabeth Gould reported on the Soviet invasion of Afghanistan, and how all was not what it seemed at that time. Clues about the next installment were planted. *Valediction: Resurrection Part 2* probes the lineage between Paul Fitzgerald and JFK's family. The research into Fitzgerald forebears yields clues to a powerful empire that was conspired against and overthrown. Surviving bloodlines are targeted, such as JFK's November 22, 1963 assassination. While delving into his past, Paul sees the connection to his experiences in Afghanistan. Seemingly disparate subjects are linked to sinister forces in history, manipulating unwitting believers. How does the CIA's Soviet threat analysis known as "Team B" connect to the Arthurian legends? Do we march forward into the future through random events? Or has a course been charted, going back centuries? "Valediction: Resurrection" is a unique book that awakens new insights. The past is never easy to reconcile, and in Paul Fitzgerald's case, he went back a 1000 years to do so. The author's quest for knowledge and truth is filled with intriguing stops along the way. It's a book with the qualities of a blockbuster film that will appeal to history lovers, conspiracy researchers, genealogists, and mystery fans.
